

**REDDING AREA BUS AUTHORITY
BOARD POLICY**

SUBJECT LEGISLATIVE POSITION	RESOLUTION NUMBER	POLICY NUMBER	EFFECTIVE DATE
	RABA-90	104	2/22/94

BACKGROUND

The Redding Area Bus Authority is often requested to prepare a position on legislation affecting transit funding levels, vehicle emissions, and other transit related items.

PURPOSE

To establish the guidelines to be followed by Board Members, officers, and employees of the Redding Area Bus Authority in support of legislation.

POLICY

The official position of RABA on any bill or other legislative matter will be developed by RABA staff. No Board Member, officer, or employee of RABA will take a position on legislation in a manner that conveys the impression of an official position on the part of RABA.

It is recognized that situations may exist which need immediate attention or response. The Chair may in that circumstance, after consultation with the Director, or his designated representative, submit a position statement which will be later ratified or clarified by the Board.

This policy is not intended to preclude individuals from taking an individual position on legislation so long as it does not appear to represent official RABA business.
