December 22, 2005

Honorable Chairman and Members
of the Board of Directors
Redding Area Bus Authority
Redding, California

Honorable Members:

In accordance with State and local statutes, the Redding Area Bus Authority (RABA) hereby submits the Comprehensive Annual Financial Report for the year ended June 30, 2005. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Hathaway & Ksenzulak, LLP, Certified Public Accountants, have issued an unqualified ("clean") opinion on RABA's financial statements for the year ended June 30, 2005. In addition to meeting the requirements set forth in the RABA Joint Powers Agreement, the audit was also designed to meet the requirements of the Transportation Development Act. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

- PROFILE OF THE REDDING AREA BUS AUTHORITY -

RABA is a component unit in the City of Redding's comprehensive annual financial report. The City provides accounting and administrative staff to RABA. Five members of the Redding City Council, one member of the Shasta County Board of Supervisors, one member of the Anderson City Council, and one member of the Shasta Lake City Council serve on RABA's Board of Directors.

RABA was formed in 1976 by a joint powers agreement (JPA) between the City of Redding and the County of Shasta to provide public transportation services within the Greater Redding Area. Between 1976 and 1981, RABA conducted in-depth studies to determine the type of system that would provide the most cost effective service for the community. RABA began fixed route and demand response public transportation service in November 1981, utilizing twelve 1974 model Mercedes-Benz, 19-passenger vehicles acquired used from San Diego Transit. The service provided access to shopping, residential, commercial, medical, and recreational areas in the Redding area.

In 1983, service was expanded to include a route to Shasta College, which now also serves Simpson College. A route was added in 1985 to provide service to the Central Valley, Project City, Summit City, and Pine Grove areas north of Redding. (This area, incorporated in 1993, is now the City of Shasta Lake and is a member of the JPA.) In 1987, RABA purchased ten 1987 (32-passenger) Gillig coaches to replace an aging fleet. The new vehicles brought to RABA a new image, which in turn has increased ridership and improved public acceptance of the service. In October 1994, expanded fixed route service was implemented, necessitating the acquisition of four transit coaches. In 1998-99 and 1999-00, eleven 35-foot coaches were purchased with Proposition 116 and Federal Transit Administration funds, replacing vehicles in RABA's aging fleet. RABA replaced 17 transit vehicles through its bus replacement schedule in 2001-2002, one in 2002-2003, and three in 2003-04.

The Joint Powers Agreement between the City of Redding and the County of Shasta was amended effective January 1, 1998, to include the City of Anderson and City of Shasta Lake. Therefore, Route 9 which was previously under a contract with Anderson-Cottonwood Transit is now included in RABA's service area.

Over the past ten years, RABA experienced a cumulative growth in ridership for the fixed route and express route of 19 percent. This growth was attributed to the opening of RABA's new intermodal passenger transfer facility, better known as the Downtown Transit Center. The facility provides shelter from the elements, pedestrian accessibility from the surrounding Redding downtown area, ingress and egress for buses, a safe environment for the passengers in loading and unloading, and connectivity with Amtrak and other carriers. In fiscal years 2002-03 and 2003-04, RABA

connectivity with Amtrak and other carriers. In fiscal years 2002-03 and 2003-04, RABA experienced an 18.1% decrease in ridership. Another slight drop in ridership has occurred in 2004-05, by 1.8%, or 12,821 riders.

RABA's demand response service experienced phenomenal growth in 1993-94 and 1994-95 with the implementation of the Americans with Disabilities Act (ADA) enacted by the Federal Government. The increased growth in the demand response service was felt not only at the local level, but also at the national level. Over the last 5 years, ridership has averaged over 62,000 riders a year. Over the last two fiscal years, ridership has increased by 11.7%, or 7,080 riders. Monthly ridership has grown to approximately 5,500 rides.

The Board is required to adopt a final budget by no later than the close of the fiscal year. This biennial budget serves as the foundation for RABA's financial planning and control. Budgetary control is maintained at the revenue and expense classification levels. The Board of Directors must approve any revisions.

The Comprehensive Annual Financial Report is presented in four sections: introductory, financial, statistical, and supplemental. The introductory section includes the Table of Contents, transmittal letter, Certificate of Achievement, RABA's organizational chart and a list of principal officials. The financial section includes the independent auditors' report on the financial statements, MD&A, the component unit financial statements and notes to financial statements. The statistical section includes selected financial and demographic information presented on a multi-year basis. The supplemental section includes the Independent Auditors' Report on Compliance with the Transportation Development Act (TDA).

This report presents the financial activity and position of RABA. The financial reporting entity (the government) includes the only fund of RABA, which is a component unit of the City of Redding. Component units are legally separate entities for which the primary government is financially accountable. RABA has no component units.

- ECONOMIC CONDITION AND OUTLOOK -

The Redding Area Bus Authority's service area centers on Redding, county seat of Shasta County, located at the northern end of the Sacramento Valley, approximately 150 miles north of Sacramento. Redding is a major trade, recreational, and regional center of commerce for several Northern California counties, as evidenced by its many facilities. Support for retail sales is derived from a retail trade area population of approximately 109,000 in the primary trade area and approximately 252,000 in the secondary trade area. The primary trade area consists of the metropolitan urban area, including the cities of Redding, Anderson, and Shasta Lake. The secondary trade area

Extracting timber and the processing of wood by-products, together with agriculture, tourism, and government, have historically been the major sectors of employment in the Redding area. Over the last decade, the area's economic base has diversified to a regional services economy supported by a wide variety of retail and wholesale trade in addition to medical, educational, recreational, and government services for an area covering several counties.

According to the California Employment Development Department, the unemployment rate for the Redding urban area was 6.5% in June 2005.

Since 1990, the City's population has grown at approximately 2% per year. The City's population of 88,459 has increased 8.58% over the 2000 U.S. Census tabulation and represents approximately 50% of the County's population in 2005. The following table indicates population growth for Redding and Shasta County from 1970 to 2005:

Year	<u>City of Redding</u>		<u>Shasta County</u>	
	Population	Annualized Percentage Change Over Interval	Population	Annualized Percentage Change Over Interval
1970	16,659	3.04 %	77,640	9.67 %
1980	41,995	15.21	119,449	5.38
1990	66,462	5.83	147,036	2.31
2000	80,865	2.17	163,256	1.10
2001	82,543	2.08	165,669	1.48
2002	84,560	2.44	169,200	2.13
2003	85,700	1.35	172,000	1.60
2004	87,280	1.84	175,705	2.15
2005	88,459	1.14	178,197	1.21

Source: 1970-2000 data from U.S. Census; 2001-2005 data from the California State Department of Finance as of January 1.

- MAJOR INITIATIVES -

Passenger Amenities for the Year 2006

Work is in progress to place additional bus benches throughout RABA's service area using Federal monies. All improvements and acquisitions of equipment are in conformance with the Redding Area Bus Authority's Short- and Long-Range Master Transit Plan.

Maintenance Facility Improvements

Improvements to the existing Maintenance Facility programmed to begin in 2004-05 were postponed due to funding uncertainties. This fiscal year the design and construction phase are scheduled to begin. Improvements will include additional maintenance bays, parking areas for employees and the transit fleet, landscape features, and a vehicle vacuum area that will house additional components. The project will be funded primarily with Federal monies, with a local match.

Service Improvements

In 2005-06, RABA will change Route 9 to an "Anderson only route" and provide an express service between Redding and Anderson. Minor adjustments will be made to Routes 2, 3, and 4. Route 12 will be eliminated with Route 3 covering these bus stops. The changes utilized existing routes and will result in a reduction to the annual operating costs. Performance measures are utilized to monitor the new express service and the various route modifications.

The electronic fareboxes and communication system will be upgraded to reflect current software upgrades. The electronic fareboxes were originally acquired in 1995 and the communication system was installed in 1996.

- AWARDS AND ACKNOWLEDGEMENTS -

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) has awarded a Certificate of Achievement for Excellence in Financial Reporting to RABA for its component unit financial report for the fiscal year ended June 30, 2004. This was the eighteenth consecutive year RABA has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized component unit financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

I extend my thanks and appreciation for the cooperation and assistance provided by the members of the Redding Area Bus Authority's Board of Directors for their interest and support in conducting the financial operations of RABA in a responsible and progressive manner. Special recognition is also due to RABA's administrative staff, especially Ray Duryee, Transportation Manager, the City's support staff and the contract service provider who made this presentation possible. In addition, I would like to extend a special thanks and recognition to Mark Haddad, Senior Accountant, who was primarily responsible for the preparation of the financial report. It is their combined effort that enabled the timely issuance of this report and continued provision of a quality transportation service product.

Very truly yours,

A handwritten signature in black ink, appearing to read "Stephen W. Strong", with a long, sweeping horizontal line extending to the right from the end of the signature.

Stephen W. Strong

INDEPENDENT AUDITORS' REPORT

Honorable Chairman and Members
of the Board of Directors
Redding Area Bus Authority
Redding, CA

We have audited the accompanying basic financial statements of Redding Area Bus Authority, a component unit of the City of Redding, California, as of and for the fiscal year ended June 30, 2005, as listed in the financial section of the table of contents. These financial statements are the responsibility of Redding Area Bus Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Redding Area Bus Authority as of June 30, 2005, and the changes in its financial position and its cash flows for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2005, on our consideration of the Redding Area Bus Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis is not a required part of the financial statements, but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

The information identified in the table of contents as the Introductory and Statistical Sections is presented for purposes of additional analysis and is not a required part of the financial statements of the Redding Area Bus Authority. Such information has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Hathaway & Ksenzulak, LLP

November 4, 2005

Management's Discussion and Analysis

As management of the Redding Area Bus Authority (RABA), we offer readers of RABA's financial statements this narrative overview and analysis of the financial activities of RABA for the fiscal year ending June 30, 2005. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which begins on page 1 of this report

Financial Highlights

- The assets of RABA exceeded liabilities at the close of the fiscal year by \$9,468,726 (*net assets*). This was a decline of \$861,126 from the previous year and is entirely due to depreciation which is not funded. Typically, new capital purchases are paid from capital grants and that is why depreciation is not funded.
- Fixed Route ridership continued to decline this year. Ridership declined by almost 13,000 riders (1.8 percent); however the Demand Response grew slightly. Overall operating revenues decreased by only \$623 (0.1 percent) during the year.
- Operating expenses increased by \$113,067 (2.3 percent) during the year. This increase was significantly lower than last year and was due mainly to increases in fuel and oil expenses.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to RABA's basic financial statements. RABA's basic financial statements are comprised of four components: 1) statement of net assets, 2) statement of revenues, expenses and changes in net assets, 3) statements of cash flows, and 4) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

RABA, like other government agencies, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. RABA is comprised of a single proprietary fund. A proprietary fund operates by charging its customer a fee for the service provided (*operating revenue*), like a typical business enterprise. A proprietary fund may also receive revenue from governmental agencies as grants or support (*non-operating revenue*). These *basic financial statements* are designed to provide readers with a broad overview of RABA's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of RABA's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of RABA is improving or deteriorating.

The *statement of revenues, expenses and changes in net assets* presents information showing how RABA's net assets changed during the fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., accounts receivable and accounts payable).

The *statement of cash flows* presents information showing how RABA's cash increased or decreased during the year. Cash is received and used in three ways: operating activities, capital and non-capital financing activities, and investing activities. The statement of cash flows can be found on page 22.

The *notes to the financial statements* provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the financial statements can be found on pages 23-28 of this report.

In addition to the basic financial statements and accompanying notes, this report also presents certain *other supplementary information* that can be found on pages 41-42 of this report.

Financial Analysis

Net Assets

Net assets may serve over time as a useful indicator of a government's financial position. In the case of RABA, at the end of last fiscal year, assets exceeded liabilities by \$9,468,726.

Redding Area Bus Authority Net Assets (in millions)

	2005	2004
Current assets	\$ 1.0	\$ 1.0
Capital assets, net of depreciation	9.0	9.8
Total assets	10.0	10.8
Current liabilities	0.5	0.5
Total liabilities	0.5	0.5
Net assets:		
Investment in capital asset	9.0	9.8
Unrestricted	.5	.5
Total net assets	\$ 9.5	\$ 10.3

By far the largest portion of RABA's net assets, (95 percent), represents its investment in capital assets (e.g., vehicles, buildings, improvements, and equipment). Vehicles and buildings make up almost 80% of the capital assets at the end of the fiscal year; consequently, these assets are not available for future spending.

Changes in Net Assets

Current year activities decreased the Redding Area Bus Authority's net assets by \$861,126. In year's with capital purchases in excess of current year depreciation, RABA has increases in net assets. Conversely, in years such as 2005, when few capital assets are purchased, depreciation results in a decrease in net assets.

Key elements of this decrease are as follows:

Redding Area Bus Authority		
Changes in Net Assets		
	2005	2004
Revenues:		
Passenger fares	\$540,820	\$577,436
Contract services	77,906	52,771
Other operating revenue	35,280	24,422
Transportation Development Act Revenue	2,980,929	2,751,829
Intergovernmental revenue	436,101	466,444
Other Revenue	6,446	659
Total revenues	4,077,482	3,873,561
Expenses:		
Purchased Transportation	2,362,259	2,310,114
Materials and supplies-vehicles	852,672	675,786
Depreciation	880,681	963,083
Services	541,669	536,572
Other expense	355,806	354,252
Total expenses	4,993,087	4,839,807
(Loss) before capital contributions	(915,605)	(966,246)
Capital contributions	54,479	955,430
Change in net assets	(\$861,126)	(\$10,816)
Net assets, beginning of year	10,329,852	10,340,668
Net assets, end of year	9,468,726	10,329,852

Financial Analysis

Operating revenue, revenue collected from customers or riders, is approximately 13% of RABA's total revenue. The largest proportion of revenue is comprised of Transportation Development Act funds (TDA funds) received through the Shasta County Regional Transportation Planning Agency (SCRTPA) and a federal operating assistance grant. TDA funds come from a 1/4% state sales tax that is passed through to local governments for transportation needs. TDA funds made up over 70% of the revenue used for operating RABA in 2005. The amount of TDA funds made available to fund RABA's operating costs is calculated annually. TDA funds balance RABA's operating expenses after all other operating revenue has been accounted for. Over the past several years, RABA has received a federal operating assistance grant ranging from \$300,000 to \$750,000. This grant has reduced the amount of TDA funds RABA has required to fund operational needs.

Revenues by Source

RABA's total operating expenses increased over the prior year by only \$113,067. Most of this increase is due to fuel and oil expenses, which increased by approximately \$120,000 due to the high cost of fuel during 2005. Most other areas of operating expense experienced little change during the past fiscal year.

Expenses by Category

Capital Assets

RABA's investment in capital assets (net of accumulated depreciation) as of June 30, 2005, amounts to \$9.0 million. This investment in capital assets includes vehicles, buildings, improvements, and equipment. RABA's investment in capital assets decreased by almost \$800,000 during the fiscal year ending June 30, 2005. This was due to the RABA Board's decision to put all capital purchases on hold during discussions on RABA's future. Only minimal construction of bus turnouts and shelters totaling \$54,479 was done in 2005, whereas, depreciation of \$880,681 reduced the investment in capital assets during 2005.

No major capital asset events occurred during the current fiscal year.

**Redding Area Bus Authority
Capital Assets (net of depreciation)**

	2005	2004
Land	\$ 1,326,685	\$ 1,326,210
Buildings	4,146,677	4,344,678
Vehicles	2,744,456	3,330,906
Improvements	658,577	740,695
Furnishing and equipment	67,257	71,860
Total	\$ 8,943,652	\$ 9,814,349

Additional information on RABA's capital assets can be found in note 6 on page 29 of this report.

Economic Factors

- ✓ Shasta County has experienced a steady increase in population since 1990 of one to two percent per year while the unemployment rate has increased from 6.1% percent in 2001 to 6.5 percent in 2005.
- ✓ Inflationary trends in the region compare favorably to national indices.
- ✓ Ridership on the fixed route system has declined by 18.9% over the past three years. This makes it more difficult for RABA to meet required fare box ratios and has impacted future budgets and service levels.
- ✓ The RABA Board voted in August 2005 to modify or delete six of the existing fixed routes and increase fares in two steps starting Oct 1, 2005 (\$1.25) and then again on July 1, 2006 (\$1.50). These steps are in an effort to help RABA achieve its required fare box ratios.

All of these factors were considered in preparing RABA's budget for the 2006 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the Redding Area Bus Authority's finances for all those with an interest in the authority's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Officer at the City of Redding, 777 Cypress Avenue, Redding, CA 96001.

REDDING AREA BUS AUTHORITY
Notes to the Financial Statements
June 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies of the Redding Area Bus Authority:

A. Reporting Entity

As required by generally accepted accounting principles, these financial statements represent all the funds of the Redding Area Bus Authority (RABA). RABA is a separate governmental entity formed under a joint powers agreement between the County of Shasta, the City of Shasta Lake, the City of Anderson, and the City of Redding. RABA's governing board comprises members of the governing boards of the County and the cities of Redding, Anderson, and Shasta Lake. All five of the Redding City Council also sit on the eight member board of RABA, therefore the voting majority is represented by Redding City Council members. Accordingly, RABA is a component unit of the City of Redding. Component units are legally separate entities for which the primary government is financially accountable. There are no separate legal entities that are a part of RABA's reporting entity.

B. Basis of Presentation

RABA's financial activity is accounted for under the category of proprietary fund type activity according to generally accepted governmental accounting principles. There are two subcategories of proprietary fund types. These are enterprise funds and internal service funds. All the financial activity of RABA is accounted for in a single enterprise fund.

The purpose of an enterprise fund is to account for operations: (1) that are financed and operated in a manner similar to private business enterprises (the intent of the governing body being that costs of providing goods or services to the general public be financed or recovered primarily through user charges); or (2) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

C. Measurement Focus

Measurement focus is the accounting convention that determines:

1. Which assets and liabilities are included on an entity's statement of net assets, and
2. Whether its operating statements present "financial flow" information (revenues and expenditures) or "economic resources" information (revenues and expenses).

All proprietary funds are accounted for on a cost of service or "economic resources" measurement focus. This means that all assets and liabilities associated with their activities, whether current or non-current, are included on their statement of net assets.

D. Basis of Accounting

Basis of accounting refers to when revenues and expenses are recognized in accounts and reported in the financial statements. It relates to the timing of the measurement made regardless of the measurement focus applied.

REDDING AREA BUS AUTHORITY
Notes to the Financial Statements
June 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

D. Basis of Accounting - (Continued)

Proprietary fund types are accounted for using the accrual basis of accounting. In addition, the Uniform System of Accounts for public transit operators as prescribed by the California State Controller calls for accrual basis accounting. Revenues are recognized when earned and expenses are recognized when incurred.

RABA has elected to follow Governmental Accounting Standards Board (GASB) pronouncements, and not Financial Accounting Standards Board (FASB) pronouncements after 1989, as presented by GASB Statement Number 20.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of RABA are charges to customers for transportation services. Operating expenses for RABA include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

E. Cash and Investments

RABA management considers all highly liquid investments with a maturity of 90 days or less when purchased to be cash equivalents. It is RABA's policy to record cash deposits at cost, which approximates fair value; investments are stated at fair value in accordance with Governmental Accounting Standards Board Statement Number 31.

F. Materials and Supplies Inventory

The materials and supplies inventory is valued at its average cost. The inventory consists of expendable supplies held for consumption. The cost is recorded as inventory when items are purchased and as expense when the items are used (the consumption method of accounting for inventories).

G. Capital Assets

Capital assets, which include property and equipment, are reported in the financial statements. Capital assets are defined by RABA as assets with an initial cost of more than \$1,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

REDDING AREA BUS AUTHORITY
Notes to the Financial Statements
June 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

G. Capital Assets - (Continued)

Capital assets are depreciated using the straight line method over the following estimated useful lives:

Buildings	30 years
Equipment	8-25 years
Vehicles	7-12 years
Improvements	10 years

H. Personnel Services

RABA has no employees. Accounting and administrative services are provided by City of Redding personnel. Transportation services are provided by the personnel of an independent transportation company.

I. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

J. Net Assets

Net assets is the difference between assets and liabilities. Net assets invested in capital assets, net of related debt are capital assets, less accumulated depreciation and any outstanding debt related to the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are legal limitations imposed on their use by RABA legislation or external restrictions by other governments, creditors or grantors.

When both restricted and unrestricted resources are available for use, it is RABA's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE 2 - COMPLIANCE AND ACCOUNTABILITY

Budget Data

The operating budget of RABA is adopted by the Board of Directors prior to July 1 each year primarily on a basis consistent with generally accepted accounting principles. The RABA's Executive Officer is authorized to transfer budget amounts and increase expense by amounts of revenue that exceed projections; however, any revisions that lowers the total net assets of RABA requires Board of Directors resolution.

REDDING AREA BUS AUTHORITY
Notes to the Financial Statements
June 30, 2005

NOTE 3 - CASH AND INVESTMENTS

As of June 30, 2005, RABA had the following cash and investments:

<u>Investment Type</u>	<u>Investment Maturity in Years</u>	
	<u>Fair Value</u>	<u>Less than 1 Year</u>
Local Agency Investment Fund	<u>\$ 124,718</u>	<u>\$ 124,718</u>
Total Investments	<u>124,718</u>	<u>124,718</u>
Deposits	<u>48,059</u>	<u>48,059</u>
Total Cash and Investment	<u>\$ 172,777</u>	<u>\$ 172,777</u>

RABA reports its investments in accordance with GASB Statement Number 31. This standard requires that RABA's investments be reported at fair value.

Interest Rate Risk - In accordance with its investment policy, RABA manages its exposure to declines in fair values by limiting the average maturity of its investment portfolio to less than one year, with 92.8% of investments (Local Agency Investment Fund) being available on demand.

Credit Risk - The California Government Code and the investment policy of RABA authorize RABA to invest in obligations, participations, or other instruments of the U.S. Government or its agencies, state and municipal bonds, commercial paper of "prime" quality of the highest ranking or of the highest letter and numerical rating as provided by Standard & Poor's Corporation or Moody's Investor Service, Inc., bankers' acceptances, repurchase agreements, and the State Treasurer's Investment Pool (LAIF). Reverse repurchase agreements may be made only when prior approval of the Board of Directors has been given.

RABA invests funds in the State Treasurer's Pooled Money Investment Account (PMIA) through the Local Agency Investment Fund (LAIF), a voluntary program created by statute in 1977. The PMIA has regulatory oversight from the Pooled Money Investment Board and an in-house Investment Committee. LAIF has oversight by the Local Agency Investment Advisory Board. The fair value of RABA's position in the pool is materially equivalent to the value of pool shares.

In accordance with authorized investment laws, the State Treasurer's Investment Pool (LAIF) invests in various structured notes and mortgage-backed securities, such as collateralized mortgage obligations. As of June 30, 2005, 2.406% of LAIF's investment portfolio was invested in structured notes and other asset-backed securities, respectively.

Concentration of Credit Risk - RABA has about 72% of its cash invested with the LAIF. In addition to the safety provided by investing in high quality securities, LAIF's policies limit concentration risk by spreading investments over different investment types to minimize the impact of any one industry/investment class and by spreading investments over multiple credits/issuers within an investment type to minimize the credit exposure of the portfolio to any single firm or institution.

Custodial Credit Risk - All bank and LAIF deposits are held in the name of RABA.

REDDING AREA BUS AUTHORITY
Notes to the Financial Statements
June 30, 2005

NOTE 4 - ACCOUNTS RECEIVABLE

No allowance for doubtful accounts is presented in the accompanying financial statements as management considers all accounts to be collectible. The accounts receivable generally consist of ticket sales and contract transit services which usually are collected within 60 days.

NOTE 5 - INTERGOVERNMENTAL RECEIVABLES

Intergovernmental receivables at June 30, 2005 are as follows:

Federal Department of Transportation	\$ 412,791
Shasta County - STA	12,311
Shasta County - Transit services	4,788
TDA	<u>303,656</u>
 Total	 <u>\$ 733,546</u>

NOTE 6 - CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2005 was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Capital assets, not being depreciated:				
Land	\$ 1,326,210	\$ 475	\$ —	\$ 1,326,685

Total accumulated depreciation	<u>(6,642,061)</u>	<u>(880,681)</u>	<u>584,780</u>	<u>(6,937,962)</u>
 Total capital assets, being depreciated, net	 <u>8,488,139</u>	 <u>(826,677)</u>	 <u>(44,495)</u>	 <u>7,616,967</u>
 Capital assets, net	 <u>\$ 9,814,349</u>	 <u>\$ (826,202)</u>	 <u>\$ (44,495)</u>	 <u>\$ 8,943,652</u>

REDDING AREA BUS AUTHORITY
Notes to the Financial Statements
June 30, 2005

NOTE 7 - INTERGOVERNMENTAL PAYABLES

Intergovernmental payables at June 30, 2005 are as follows:

City of Redding	<u>\$ 229,512</u>
-----------------	-------------------

As stated in Note 1, Subtitle H, the City of Redding provides administrative and accounting services to RABA. The cost of such services, plus other occasional costs, are recorded as intergovernmental payables to the City. Payments are made on those payables as RABA funds become available.

NOTE 8 - DEFERRED REVENUE

Deferred revenue at June 30, 2005 is as follows:

Advance ticket sales	<u>\$ 8,284</u>
----------------------	-----------------

NOTE 9 - RISK MANAGEMENT

RABA's contract operator for both the fixed route service and the demand response service provide public liability and property damage insurance through its agreement with the Redding Area Bus Authority to provide purchased transportation. RABA's administrative and accounting personnel services are staffed by employees of the City of Redding; therefore, workers' compensation for these positions is carried by the City. Workers' compensation insurance is administered as a co-insurance plan. The City is self-insured up to \$300,000 with an insurance company co-insuring claims from \$300,001 to \$10 million. Claim payments are charged to the fund that employs the claimant. The estimated liability for pending and incurred but not reported claims at June 30, 2005, has been included in the City's Risk Management Fund's claims payable amount as of June 30, 2005. The employees of the purchased transportation provider are covered by workers' compensation insurance through their employer.

NOTE 10 - FUNDS AVAILABLE FOR FUTURE CAPITAL PROJECTS

RABA has funds available under the Transportation Development Act for use on specific future capital projects as outlined in the Regional Transportation Improvement Plan. As required by the Act, these funds are held by the Shasta County Regional Transportation Planning Agency (SCRTPA) until RABA requests release for use on specific projects.

Once reserved for specific capital projects, SCRTPA holds the funds for three years. If, at the end of this three year period, these funds have not been requested, it is the responsibility of SCRTPA to give RABA thirty-days notice that the funds will cease to be reserved and will become available for reallocation. These funds can then be reallocated to RABA for the same project or for a different project, or to another claimant agency, at the discretion of SCRTPA.

As of June 30, 2005, total funds held for RABA by SCRTPA for future capital projects totaled \$411,465.

STATISTICAL SECTION

Statistical Section

This part of the Redding Area Bus Authority's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the authority's overall financial health.

We have audited the financial statements of Redding Area Bus Authority, a component unit of the City of Redding, California, as of and for the year ended June 30, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Redding Area Bus Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

In connection with our audit referred to above, we also performed an audit for compliance with the Transportation Development Act, the California Code of Regulations, and the rules and regulations and allocation instructions of the Shasta County Regional Transportation Planning Agency, for the year ended June 30, 2005. In connection with our audit, we performed to the extent applicable, the compliance audit tasks set forth in Section 6667 of the California Code Regulations.

In our opinion, the funds allocated to and received by the Redding Area Bus Authority for the year ended June 30, 2005, pursuant to the Transportation Development Act, were accounted for and expended in conformance with the Transportation Development Act, the California Code of Regulations, and the rules and regulations and allocation instructions of the Shasta County Regional Transportation Planning Agency.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Redding Area Bus Authority's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the basic financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Board of Directors, management, State of California and other regulatory agencies and is not intended to be and should not be used by anyone other than these specified parties.
