- Mosquito Abatement
- Water Saving Tips
- Redding Library

## Protect Yourself From Mosquitoes and the Diseases They Carry

Anything that can hold water for more than a few days can breed mosquitoes. **Drain or dump all containers in and around your home.**

### Practice the 4 D's

- ✓ **DRAIN** standing water
- ✓ **DUSK & DAWN** avoid outdoor activities
- ✓ **DRESS** wear long sleeves and pants during dawn and dusk
- ✓ **DEFEND** wear insect repellent

A handful of water can produce hundreds of mosquitoes. Neglected pools can produce more than a million mosquitoes and may affect people as far away as five miles.

## Water Saving Tips

Insulate your water pipes; you'll get hot water faster and avoid wasting water while it heats up.

## From Your Shasta County Library

Speed your way to the Redding Library for Rev, Rumble, and Roar! on April 9, from 10 am to 12:30 pm. As part of Week of the Young Child, kids will have the chance to climb aboard emergency, construction, and military vehicles and see what it is like behind the wheel.

This free, family event promises to be bigger than last year with over twenty vehicles filling the parking lot. Some of the most popular attractions will be back, like the Vietnam-era Huey helicopter and animal control. New favorites will include vintage cars, a logging truck, and a special story time aboard a school bus. Along with all of the big vehicle fun there will also be raffles and free books.

Rev, Rumble, and Roar! was made possible through the support of First 5 Shasta and the Shasta County Office of Education.

For more information call our Children's Desk at 530-245-7253 or visit [www.shastalibraries.org](http://www.shastalibraries.org).
