COMMERCIAL ENERGY ADVISOR

What should I know about REU's
Commercial Energy Advisors?

WHAT IS A COMMERCIAL ENERGY ADVISOR?

Making important decisions on energy upgrades for your business can be overwhelming and may require expertise you don't have on staff. REU's Commercial Energy Advisors are here to help commercial customers make informed choices by answering billing questions, providing expertise on reducing energy consumption and guidance on REU's commercial rebates.

HOW CAN A COMMERCIAL ENERGY ADVISOR HELP ME?

ANALYSIS

Your bill changes seasonally over time. REU's Energy Advisor can help you identify key drivers of your bill, and how energy efficiency upgrades can help.

REBATES

Taking advantage of rebates can help reduce project costs. Let us review your project proposal to ensure it meets REU's rebate requirements.

SITE VISITS

Our Energy Advisors perform site visits to help identify your highest ROI upgrades along with low cost and no cost upgrades you can make to save energy.

WHAT CAN YOU EXPECT?

COST

An REU Commercial Energy Advisor consultation is FREE. REU provides this service to our large commercial customers to help you manage energy costs and help us reduce our impact on the environment.

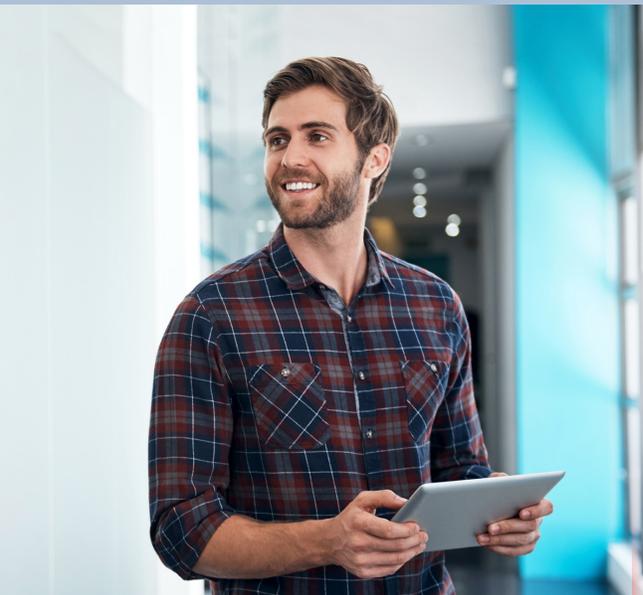

SAVINGS

Taking advantage of REU's commercial rebates can help you reduce the cost of your energy upgrade projects. Installing new, high efficiency equipment will help you continue to save on energy costs.

CONFIDENCE

REU wants you to get the most from your energy upgrades. Participating in our rebate program and consulting with our Energy Advisors will ensure you are making the best choices in energy upgrades.

WE ARE HERE TO HELP

An REU Commercial Energy Advisor can provide you with expertise and guidance on most of your energy related projects. Pick up the phone, we are here to help.
