Costco requests more time to consider remarks

A public hearing to consider the River Crossing Marketplace Final Environmental Impact Report (FEIR) was scheduled for the City Council meeting last Tuesday, August 6, 2019, and at the request of Costco Wholesale, the hearing was continued to August 20, 2019. After receiving additional public input, Costco Wholesale has now requested that City staff take additional time to address the concerns presented.

At the City Council meeting on August 20, staff will recommend that the City Council close the public hearing and take no further action. Costco recognizes the process may take six months or more to address the additional remarks and also comply with legal requirements under the California Environmental Quality Act by recirculating portions of the project's Draft EIR. When that process is completed, the project will have to be considered by the Planning Commission before returning to the Council for consideration in early 2020.
