

INDUSTRIAL WASTEWATER DISCHARGE APPLICATION REQUIREMENTS

City of Redding
777 Cypress Avenue
Redding CA 96001
Telephone:
(530) 225-4013
FAX: (530) 225-4360

All City and County building permit applicants receiving this packet are required to complete one of the attached Industrial Wastewater Discharge Survey/Application forms. Please return the survey immediately. Compliance with applicable wastewater requirements and payment of any applicable fees must be made to the City prior to the issuance of your building permit or prior to occupancy as appropriate.

In addition to new construction, commercial/industrial remodels, tenant improvements, and changes in occupancy must be evaluated to ensure that they meet current standards and may require payment of sewer connection charges for the proposed increase in wastewater discharge.

One of the attached two surveys **must be completed**:

1. **Wastewater Discharge Survey/Application 1** is to be used for all general industrial and commercial applicants except those using the second survey.
2. **Wastewater Discharge Survey/Application 2** is to be used for –
 - a. Restaurants
 - b. Markets
 - c. Meat-cutting Facilities
 - d. Food Preparation Facilities
 - e. Churches
 - f. Day-care Facilities

Should wastewater pretreatment requirements apply, the specific needs will be communicated directly to you. This will facilitate any design modifications and expedite final approval of your plans and building permit issuance. All applicable Wastewater Utility fees must be paid by you when receiving your building permit for remodels and tenant improvements, or prior to building occupancy and final building permit approval for new construction.

Please note: the survey form you complete must be signed by the business owner (responsible party) or a duly authorized person for the responsible party.

For questions on **pretreatment requirements**, contact Industrial Waste at (530) 224-6050.

For questions **about fees**, contact the City of Redding Permit Center at (530) 225-4020
