

CITY OF REDDING ADOPT-A-STREET PROGRAM GENERAL INFORMATION

Thank you for your interest in the City of Redding's Adopt-a-Street Program, which includes streets, roadways and public facilities, such as parks, open spaces and trails. Becoming an Adopt-a-Street sponsor is very simple. A representative from your group or organization will need to act as an Adopt-a-Street Captain (contact person) to coordinate the cleanup events. For your convenience, we will provide necessary equipment for the cleanup and post a sign in the area you adopt, signifying your participation as an "Adopt-a-Street" sponsor. Areas adopted for cleanup must be cleaned a minimum of four times per year.

The *Application to Participate* and the *Waiver of Liability* must be completed and returned to the City of Redding's Solid Waste Utility office before the cleanup event .

All persons who participate must sign the Waiver of Liability prior to participation. For children under 18, a parent must sign the Waiver of Liability for their child in order for the child to participate. Any new persons wanting to join your group for subsequent cleanup events must also sign the Waiver of Liability prior to participation. Please have a copy of these forms with you during the cleanup, as they will serve as your documentation for participating in the City's Adopt-a-Street Program. Please review the City's Conditions of Participation and Safety Requirements.

Please call the Solid Waste Utility at (530) 224-6201 at least one week before the cleanup event to reserve the following necessary equipment: Safety vests, safety signs, litter collection tools, and orange plastic bags. We have only a limited amount of equipment, and many groups share the equipment. Equipment must be returned to the Solid Waste Utility within two days after the cleanup event. City collection crews will retrieve the filled, plastic bags during the week following the cleanup event or as time allows. Bags and bulky items; i.e., tires, mattresses, furniture, etc., should be placed along the roadside but in a location that will not obstruct traffic flow nor create a hazard.

Thank you again for your interest in the City of Redding's Adopt-a-Street Program. The Solid Waste Utility relies on the dedicated help of service organizations, businesses and individuals, like you, to make the Adopt-a-Street program successful.

If you have any questions, please do not hesitate to contact the City of Redding's Solid Waste Utility at (530) 224-6201.
